I have been selected for a research internship with National Chung Cheng University, Taiwan, a program floated by our institute through the MOU between CCU and our institute. The programme is scheduled from 9-12-2023 to 19-1-2024. I humbly request permission for a 3-week absence from 1-01-2024 to 19-01-2024.

I wish to highlight that all my coursework is completed, with only one remaining course and BTP in the 8th semester. Furthermore, the 3-week leave will still allow me to maintain more than 80% class attendance, comfortably meeting the new 70% attendance criteria.

I have discussed this opportunity with my BTP supervisor, and he fully supports my leave request.

This internship holds immense importance for my future aspirations, as I am planning to pursue higher studies and believe that this foreign research experience could be a pivotal moment.

Additionally, I am eager to represent IT Jammu in a foreign university, showcasing our institution on an international stage.

I earnestly request your kind consideration and approval of my request.
